Reaction to the Gospel is a short, standalone sequel to an earlier book called The Gospel and Chronicle of Jesus. In a series of essays and interviews, four Christian characters (an engineer, an ancient Greek philosopher, a tribal medicine man, and a nursing supervisor) divulge their Christian outlook on life. The engineer uses logic to try to prove the existence of God. The philosopher embarks on a long discourse on Christian virtues and civilization. The medicine man describes Jesusâ€™ resurrection as a kind of soul flight and shamanic journey. And the nursing supervisor describes trying to patiently maintain her Christian ideals at work, where her co-workers are deceitful and envious. The essays help us understand how each person is touched by the Gospel in their own way.
