

Your students are individuals. Do your teaching materials treat them that way? Feldmans Understanding Psychology does. Using a revolutionary revision process, Bob Feldmans Understanding Psychology is a fully integrated learning system that gives students an even greater opportunity to achieve success, and brings the Students First goal to a new level. With an adaptive learning system that provides an individualized learning environment and helps students identify what they know, and more importantly, what they don't, every student has a unique experience refined to their needs. The thoroughly revised Eleventh Edition is a first of its kind, revised using HeatMap technology in which systematic and precise feedback from thousands of students was anonymously measured using LearnSmart, the adaptive learning diagnostic. Because virtually every paragraph in the previous edition is tied to several questions students answer in LearnSmart, Bob was able to see where students struggled most...the hot spots...and in turn refine and update these areas to be more clear, more concise, and more impactful. The 11th edition continues Bob Feldmans accessible pedagogy and hallmark research, as well as his modules-within-chapters format that is both manageable for students and allows every professor the flexibility to assign and cover what they want. The 4 additional modules in Create give instructors even extra flexibility to completely cater their text to their course and their students.

The Alchemist and the Angel, How God Can Be Cognized: Autobiography of a Scientist Who Studied God, Social Research in the Judicial Process: Cases, Readings, and Text, Nishida and Western Philosophy, A Time for Choosing: Free Enterprise in Twenty-First Century Britain, Finnish Folk Poetry and the Kalevala (New Perspectives in Folklore), Australian Sport - Better by Design?: The Evolution of Australian Sport Policy,
